

Benjamin Gardecki

January 11, 1995 - February 9, 2019.

Benjamin Gardecki (or Ben to his many friends) was a very social young man and loved to play sports and hangout with his very many good friends. When looking for something to do Ben's phone would start to ring and friends would be looking to get together. You could find Ben and his friends on a volleyball court, on a ski hill, on a quad playing in the mud, on a snowmobile riding or on a ball diamond playing slo-pitch.

A highlight of the springtime was the annual Honey Festival SLO-Pitch tournament. I'm sure the planning to go to the event was as much fun as the actual tournament, but the weekend of playing ball with his friends was a huge favorite. The stories to be told are many and reminiscing for days after each tournament was always a good time.

Benjamin left us too soon enjoying time with friends and snowmobiling in the mountains, but he is nevertheless still here with us all. He would rather be on the field, but instead would be honoured that his friends and this community remember him so well by dedicating one of the new ball diamonds in his name.

Ben's presence is still very strong and it shows that a great young man is never forgotten, but his memory continues to live on. We, Benjamin's family are deeply grateful that he is being remembered in this way.
